

**Legislative Link Update**  
**June 15, 2016**  
**End of Session Report**

Intergovernmental Programs staff has now completed the 2016 End of Session Report. The Report has been posted on our department website here:

<http://www.glendaleaz.com/intergovernmental/EndYear.cfm>

The Report provides a session overview, budget highlights and outlines all of the legislation that was introduced during the last legislative session that impacts municipal operations. Please note in many cases these are different bills than those contained on our Neighborhood Legislative Link tracking list that we reported on previously. The End of Session Report specifically covers bills that will or would have impacted city operations.

You will find the bills organized into the areas identified in the City's adopted legislative agenda. The report distinguishes within those categories which bills passed and will become law and those that failed. The new laws will become effective on August 6, 2016, unless the bill contained an otherwise specified effective date. Each of the new laws is assigned a Chapter number in the order of when they were signed by the Governor. We have provided you with a summary of the newly chaptered laws, however if you would like to read the entire statutory language you can do so here
